KADI SARVA VISHWAVIDHYALAYA B.E. MECHANICAL Semester-V NOVEMBER 2016

Subject: Industrial Engineering Date: 17/11/2016 Subject Code: ME-504 Time: 10:30 am to 01:30 pm Total Marks: 70 Instructions: 1. Answer each section in separate Answer sheet. 2. Use of Scientific calculator is permitted. 3. All questions are **Compulsory**. 4. Indicate clearly, the options you attempt along with its respective question number. 5. Use the last page of main supplementary of rough work. **SECTION-I** Que:1 (A) What do you know about Special Economic Zone and explain its [5] objectives. (B) Write short note on choice of site for location. [5] (C) Explain Types of Plant Layout in details. [5] (C) What is PPC? Give the major objectives of the same. [5] Que:2 (A) Explain the relationship between "Production Planning" and [5] "Control". (B) Differentiate between Job order production and batch order [5] production system. OR (A) What is sales forecasting? State its advantages. [5] (B) The sale of a product during last five years is tabulated below: Year 2006 2008 2009 2010 2007 14 10 8 6 Sale [5] Find: (a) equation of best fit line. (b) Forecast the sale in the year 2011. Que:3 (A) What is productivity? Explain in brief the factors which affect [5] productivity. [5] (B) Write in brief about loading and scheduling. [5] (A) State objectives of work study. (B) What is method study? Explain objectives of method study. [5] SECTION-II [5] Que:4 (A) Write short note about qualified worker. (B) Define Job evaluation. Discuss the objectives of job [5]

OR

[5]

[5]

(C) Write short note on: 1. Job Analysis 2. Job Description

(C) Write short note on Observed time and Standard time.

Que:5 (A)	Discuss the advantages and disadvantages of merit rating.	[5]
(B)	What is incentive? State objectives of incentives.	[5]
	OR	
(A)	What is difference between "Strike" and "Lock out"?	[5]
(B)	Explain objectives of industrial legislation.	[5]
Que:6 (A)	Define Total Quality Management (TQM)	[5]
(B)	Define Entrepreneur and Entrepreneurship.	[5]
	OR Buildings of a substitute of the	
(A)	What do you understand by inspection? What are its	[5]
	objectives?	[5]
(B)	Discuss about short term finance and long term finance.	[5]

Best of luck

strate de vou teew about Special Economic conte and espain it

KADI SARVA VISHWAVIDYALAYA

B.E SEMESTER 5th EXAMINATION (NOVEMBER / 2015)

SUBJECT CODE: ME-504 SUBJECT NAME: INDUSTRIAL ENGINEERING DATE: 26/11/2015 TIME: 10:30 am to 1:30 pm TOTAL MARKS: 70

Instruction:

- 1. Answer each section in separate Answer Sheet.
- 2. Use of scientific Calculator is permitted.
- 3. All questions are compulsory.
- 4. Indicate clearly, the options you attempted along with its respective question number.
- 5. Use the last page of main supplementary for rough work.

SECTION-I

Que:1 (A)	Define Plant Layout. Discuss Product layout.	[5]
(B)	Write short note on Special Economic Zone (SEZ).	[5]
(C)	Write short note on Product Design and Development.	[5]
	가입니다 전에 가입니다. 그리고 있는데 가입니다는 경에 바로 없어 보는 요즘 없는데 있다면 보고 있는데 있다. 그는데 없는데 있는데 없는데 없는데 없는데 없는데 없는데 없다면 없다. 그 없는데 없다	

OR

(C)	What is PPC. State the major objectives of PPC.	[5]
		F # 3

Que:2 (A) What is sales forecasting? Explain exponential smoothing method. [5]
(B) Write short note on String diagram. [5]

OR

(A) What is Productivity? Discuss various reasons which leads to increase or [5] decrease productivity.

(B) Write short note on Line Balancing. [5]

Que:3 (A) For the following given data, calculate forecast for using $\alpha = 0.3$ [5]

Month	1	2	3	4	5	6	7	8	9	10
Actual Demand	10	12	8	11	9	10	15	14	16	15

(B) Find the sequence that minimizes the total elapsed time to complete the [5] following jobs. Determine elapsed time also.

		Jobs (Processing time in minutes)									
		1	2	3	4	5	6	7			
Machines	A	12	6	5	11	5	7	6			
	В	7	8	9	4	7	8	3			

OR

(A) The elemental times (in minutes) for 4 cycles of an operation using a stop [5] watch are as follow:

Elements	Cycle time in minutes							
	1	2	3	4				
1	1.5	1.5	1.3	1.4				
2	2.6	2.7	2.4	2.6				
3	3.3	3.2	3.4	3.4				
4	1.2	1.2	1.1	1.2				
5	0.51	0.51	0.52	0.49				

Calculate standard time for the operation if Element 2 and 4 are machine element and for other elements the operator is rated at 110% and allowances are 15% of normal time.

Following are the observations of bulb manufacturing company for the 12 days. Draw the P chart and express opinion for the process based on the chart.

Days	1	2	3	4	5	6	7	8	9	10	11	12
No. of Inspected bulbs (n)	59	102	48	130	78	65	80	96	110	145	68	86
No. of Defective bulbs (d)	4	12	6	18	8	7	6	1	3	37	8	5

SECTION-II

What do you mean by Job Evaluation? Explain any two methods for Job [5] Que:4 (A) Evaluation. [5] (B) Write short note on Factories Act, 1948. [5] (C) Explain OC curve in detail. [5] (C) Write characteristics of an Entrepreneur. [5] Que:5 (A) Define following term: (1) Quality Control (2) Quality Assurance (3) Quality Audit (4) Reliability (5) Inspection [5] (B) Explain Control Charts for Attributes in detail. [5] (A) State various government incentives to entrepreneurs. (B) Calculate the earnings of a worker under Halsey Plan and Rowan Plan. The [5] relevant data is given as: Time rate = Rs. 0.60/hrs. Time allowed = 8 hrs. Time taken = 6 hrs. Time saved = 2 hrs.Que:6 (A) What is work measurement? List various techniques of work measurement [5] and explain any one in detail. [5] (B) Explain Halsey Incentive Plans and Taylor's piece rate plans.

(A) Explain Sampling Plans in brief.

(B) Explain the workman's compensation Act, 1923.

[5]

[5]

Dt: 20/11/14		Vishwavidyala cal Engineering	g	0.:
Subject: Industrial En	gineering ME 504		NAME OF THE PARTY	Total Marks: 70
Time: 10:30AM - 1:3	OPM ·			Date: 20/11/2014

Instructions:

- 1. Attempt all questions as directed and answer each section in separate main answer sheets.
- 2. Figures to the right indicate full marks.
- 3. Make suitable assumptions.
- 4. Please don't carry any type of Communication Gadgets, Programmable Calculators, etc., with you during the examination except Scientific Calculators.
- 5. Please don't write anything on this question paper except your Enrollment and ID Number.
- 6. Please keep your Identity Cards and Hall Tickets on your desk during the examination.
- 7. Please follow all the instructions provided by authorized university and institute personnel.

	Section – I	
Q. 1		Total: 15
A.	List the factors affecting plant location and explain them in brief. Also, explain in short the "SEZ – Special Economic Zone".	5
В.	Explain any five from the list given below: 1. Routing 2. Scheduling 3. Dispatching 4. Route Sheet 5. Line Balancing 6. Machine Loading	5
c.	Define the plant layout and explain in details product layout and process layout.	5
c.	OR Name the types of production systems and write the short notes on standardization and simplification.	5
Q. 2		Total: 10
A.	Discuss the exponential smoothening and weighted moving average methods of sales forecasting.	5
В.	The following series relates to the annual sales in thousands of a product during the period of 1985-2000. Find the trend of sales using (i) 2 year moving averages	5

(ii)	3year	moving	averages	
------	-------	--------	----------	--

Year	Sales in thousands	Year	Sales in thousands
1985	17	1993	26
1986	19	1994	29
1987	16	1995	27
1988	18	1996	23
1989	21	1997	29
1990	23	1998	25
1991	26	1999	26
1992	25	2000	31

OR

Q. 2												Total: 10
A.	Explain	the PP	C along	with d	ifferen	t phase	s and n	najor ol	bjective	es.		5
В.	The der									Estima	te the	5
	Year	1	2	3	4	5	6	7	8	9	10	
	Units	125	136	146	151	168	158	162	171	188	169	

Q. 3

- A. Explain the productivity along with the ways to improve productivity with suitable examples.
- B. Calculate the normal time and standard time for each element of the job from details given below:

Element	Observed time	Rating	Relaxation allowance in %
Α	10	95	8 reent sion
В	8	105	14
С	6	110	12
D	25	120	5
E	16	110	10

Also, compare PMTS-MTM System and W-F system.

c. Normal and standard time

OR

Q. 3
A. Explain flow diagram, string diagram, SIMO chart and two handed process chart in detail.
B. 1. Explain motion study and work measurement with objectives in detail.
2. Explain the terms below with suitable example:

a. Micro and macro motion study
b. Performance rating

- d. Predetermined elemental time standards
- e. Concept of work sampling

Section - II

A. Explain steps involved in point rating method of job evaluation. B. Explain any two from the list given below: 1. Method of merit rating 2. Job evaluation system 3. Different types of incentives C. Explain in detail the nominal wages, real wages, minimum wages, fair wages and living wages. C. Describe Taylor's differential piece rate system in detail. 5. A. Explain workman's compensation act, 1923 in detail. 5. Explain works committee and conciliation officers and board of conciliation with respect to industrial dispute act. OR 7. Otal: 10 A. What are factories acts? As per factories act 1948, what are the major provisions of safety and health? B. Explain the necessity of industrial acts with suitable examples. 5. C. Describe Taylor's differential piece rate system in detail. 5. Define statistical quality control. Discuss practical devices used as tool of statistical control in factories. 6. Explain the concept of entrepreneur and enterprise with factors affecting statistical control in factories. 6. Explain the concept of entrepreneur and enterprise with factors affecting enterpreneurship. Our best wishes are always with you	Q. 4	<u>Section – II</u>		
B. Explain any two from the list given below: 1. Method of merit rating 2. Job evaluation system 3. Different types of incentives C. Explain in detail the nominal wages, real wages, minimum wages, fair wages and living wages. OR C. Describe Taylor's differential piece rate system in detail. 5 Q.5 A. Explain works committee and conciliation officers and board of conciliation with respect to industrial dispute act. OR Q.5 A. What are factories acts? As per factories act 1948, what are the major provisions of safety and health? B. Explain the necessity of industrial acts with suitable examples. 5 Q.6 A. Provide the significance of X and R charts as they are drawn for the job. Also, list the applications of P-chart and C-chart. B. Write a short note on entrepreneurship and project techno-economic feasibility assessment. OR Q.6 A. Define statistical quality control. Discuss practical devices used as tool of statistical control in factories. B. Explain the concept of entrepreneur and enterprise with factors affecting entrepreneurship.	<u> </u>		Total: 15	
1. Method of merit rating 2. Job evaluation system 3. Different types of incentives C. Explain in detail the nominal wages, real wages, minimum wages, fair wages and living wages. OR C. Describe Taylor's differential piece rate system in detail. 5 Q.5 A. Explain workman's compensation act, 1923 in detail. 5 Explain works committee and conciliation officers and board of conciliation with respect to industrial dispute act. OR Q.5 A. What are factories acts? As per factories act 1948, what are the major provisions of safety and health? B. Explain the necessity of industrial acts with suitable examples. 5 Q.6 A. Provide the significance of X and R charts as they are drawn for the job. Also, list the applications of P-chart and C-chart. B. Write a short note on entrepreneurship and project techno-economic feasibility assessment. OR Total: 10 A. Define statistical quality control. Discuss practical devices used as tool of statistical control in factories. B. Explain the concept of entrepreneur and enterprise with factors affecting entrepreneurship.	A.	Explain steps involved in point rating method of job evaluation.		
2. Job evaluation system 3. Different types of incentives C. Explain in detail the nominal wages, real wages, minimum wages, fair wages and living wages. OR C. Describe Taylor's differential piece rate system in detail. 5 Q. 5 A. Explain workman's compensation act, 1923 in detail. 5 B. Explain works committee and conciliation officers and board of conciliation with respect to industrial dispute act. OR Q. 5 A. What are factories acts? As per factories act 1948, what are the major provisions of safety and health? B. Explain the necessity of industrial acts with suitable examples. 5 Q. 6 A.
